

# Fast T-Jet Jumbo 2

**When you need it BIG!!**

With a large 24" bed you can print oversize T-Shirts and more!

Fast T-JET™ JUMBO2 is just like the smaller unit but MUCH bigger. It will also print vibrant, washfast prints on white, light and dark shirts VERY FAST. Better yet, this printer will print oversize prints like race car images. In fact, it will print up to 23.5" x 48"!

Fast T-JET™ JUMBO2 is a full-size floor-standing unit that measures 55" W x 108" L and 47" H. It can print on baseball caps in 30 seconds with a special baseball cap holder. It also prints on small towels, panties, shorts, bibs, bandanas and more.

Fast T-JET™ JUMBO2 is great for small and large jobs. With an ink cost

of less than 40 cents per shirt (standard print size on light shirts) and speeds of about 45 seconds for TWO shirts at a time\* you can get great production! It also has a built-in laser light safety stop that prevents the unit from working if there is anything in the path of the adjustable height print head.

Fast T-JET™ JUMBO2 uses four color (CMYK) inkjet technology and comes complete with a bulk continuous flow ink system and four 8 oz. starter bottles of FastINK™ TEXTILE CMYK color, 1 liter of FastINK2™ Textile White, two gallons of FastINK™ Textile Pre-Treatment for dark shirts, and a great graphics program called FastARTIST and FastRIP™.

You get a very washfast print. The finished print needs to be heat set using either a standard heat transfer press or conveyor dryer. No additional treatment is necessary.

**Print two shirts across!**

The Jumbo Includes a large bed with six removable 11.5" x 13" (29.3 x 40.6cm) shirtboards (shirts can be laid sideways for wide prints). It also includes one oversize 16" x 20" shirtboard.

**Includes graphics software and white ink for dark shirts!**

**\$39,995**

*Lease for \$875 mo. 5 years w/ 10% down.*

## Garment Runner

### Catch - Move - Store -Versatility

#### Catch..

A large volume of shirts as they discharge from any conveyerized dryer and fall into the Garment Runner, up to 700 shirts in a 60" model. Use our size separator option to keep sizes separated with in a bag.

#### Move...

With heavy duty commercial casters, your Garment Runner will easily transport goods to another area of your shop. Shirts can be boxed and shipped efficiently or moved to the press for additional printing.

#### Store...

Simply slide the bag off the back of your Garment Runner without lifting it. A drawstring will keep the bag closed and your garments clean until you are ready to process your order. A clear job pocket allows you to identify your Garment Runners contents. Quickly install a new bag and you are ready to catch more shirts.

#### Versatility

Simply remove the bag and your Garment Runner transforms into a utility cart / box mover. With its heavy duty commercial construction, the Garment Runner will easily handle up to 500lbs of cargo!
